CURRICULUM VITAE

A4 / 2026

Profile 01 / POSITIONING

Full-stack developer in Karachi building modern interfaces, server-side APIs, and database-driven web applications from the first screen to the data underneath. Five live products span healthcare, commerce, career discovery, pet care, and student finance. My work pairs clean, maintainable code with a sharp eye for speed and responsive detail.

MODERN INTERFACES · POWERFUL BACKENDS · DATABASES · END TO END

Selected Work 5 LIVE PRODUCTS

FEATURED BUILD — LIVE

PhysioSync

PHYSIOTHERAPY / WEB

A calm, conversion-focused physiotherapy clinic website that makes its information and next steps easy to find. Built to feel clear on every screen and stay fast and responsive.

physiosync-pk.vercel.app · JavaScript · CSS · Responsive UI

PathSeeker

CAREER TECH

An interactive career-discovery app that turns a broad question into a tailored path, guiding people from uncertainty to a clear next step.

careerpassporttw.vercel.app · JavaScript · Node.js · MongoDB

FurShield

FULL STACK

One platform for pet owners, vets, and shelters: health timelines, documents, and insurance records organised around each pet.

furshiel.vercel.app · JavaScript · Node.js · MongoDB

Campus Coin

STUDENT FINTECH

A student budget tracker built around allowances, not salaries. Log or import spending, then see it categorised, charted, and flagged before the budget runs out.

campuscoin-sable.vercel.app · JavaScript · REST APIs · Charts

CTRL ZONE

FULL-STACK COMMERCE

A gaming-peripherals store with customer registration, a cart and checkout, plus catalog and order administration.

ctrlzone.infinityfreeapp.com · PHP · MySQL · JavaScript
