Frameworks & Libraries: Bootstrap

Tools: Git, GitHub, VS Code, SEO

Other: Responsive Design, Cross-Browser Compatibility

Experience

Frontend Developer Intern

CodeAlpha

- Developed responsive web interfaces using modern frontend technologies.
- Improved website layouts and user experience.
- Collaborated on real-world frontend development tasks.
- Followed clean coding practices and version control workflows.

Projects

Personal Portfolio Website

- Designed and developed a fully responsive personal portfolio website to professionally showcase projects, technical skills, and contact information.
- Smooth layout structure, and clean design using HTML, CSS, and Bootstrap.
- Ensured cross-browser compatibility and optimized performance for better user experience across all devices.

Phsio At Home (PAH)

- Physio At Home is an AI-powered physiotherapy platform that enables users to perform physiotherapy exercises from the comfort of their homes using their device's webcam.
- The system uses computer vision and AI-based posture tracking to monitor body movements, provide real-time feedback, and help users perform exercises correctly without requiring constant physical supervision.
- The goal is to make physiotherapy more accessible, affordable, and convenient for everyone.

Wonders Of World

- Created an informative and visually engaging website featuring detailed sections about the world's most famous landmarks.
- Focused on structured content layout, high-quality image presentation, and responsive design.
- Applied modern styling techniques to improve readability and user interaction, ensuring smooth navigation across different screen sizes
